FIG. 7

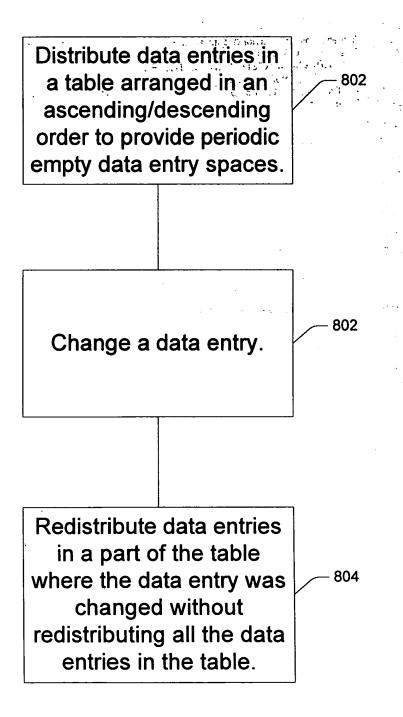

Fig. 8

Read a section of a table of data entries arranged in an ascending/ descending order that includes periodic empty data entry spaces.

902

Sort the data entries in the section to include, remove, and/or alter a data entry.

904

Write the section having the sorted data entries into the table.

906

Fig. 9

Divide a table of data 1002 entries sorted in an ascending/descending order into sections. Substantially maintain at least one empty data 1004 entry space in each section. Change a data entry in 1006 the table. Fig. 10 Rearrange only part of 1008 the table to maintain the

order of the entire table.
